

Mohamed Elmostafa Motasim Sabil

Senior Procurement Engineer | Materials Engineer | PMP® | Oracle ERP & SAP | Team Lead
Riyadh, Saudi Arabia | +966 550 369 025 | mohamed.sabil91@hotmail.com | [linkedin.com/in/mohammedsabil](https://www.linkedin.com/in/mohammedsabil)

PROFESSIONAL SUMMARY

PMP®-certified Senior Procurement Engineer and Materials Specialist with over **10 years of dual-track experience** spanning civil site engineering and **end-to-end strategic procurement** across Saudi Arabia and Sudan. Currently directing the full procurement lifecycle for the **King Abdullah International Gardens (KAIG)** — one of the world's most complex botanical giga-projects, valued at **SAR 2.6+ billion** under Riyadh Municipality — while **leading and mentoring a team of five Procurement Engineers**.
A distinguishing advantage is a foundational background as a Resident/Site Engineer, enabling **technical evaluation of material submittals and shop drawings** through the lens of a practising engineer. This dual competency drives precision in **RFQ/RFP management, vendor qualification, Total Cost of Ownership (TCO) optimisation**, and **contract negotiation** against international standards (**ASTM, BS, LCGPA**). Proficient in **Oracle Procurement Modules, SAP, Power BI, Primavera P6, AutoCAD, and ETABS**.
Fluent in Arabic and English; proven track record of zero critical-path delivery failures on landmark Vision 2030 projects.

CORE COMPETENCIES

▸ Strategic Sourcing & Vendor Management	▸ Oracle ERP & SAP Procurement Modules
▸ Contract Negotiation & Administration	▸ Power BI Supply Chain Analytics
▸ Technical Submittal Review & Approvals	▸ Budget Control & Cost Engineering
▸ RFQ / RFP / Tender Management	▸ Team Leadership & Mentoring
▸ Total Cost of Ownership (TCO) Optimisation	▸ ASTM / BS / LCGPA Standards Compliance
▸ Supplier Pre-Qualification & Audit	▸ Material Specifications & QA Evaluation

PROFESSIONAL EXPERIENCE

Senior Procurement Engineer & Team Lead

Dec 2022 – Present

Zaid Alhussain & Brothers Group (ZAHBG) · Riyadh, KSA

Flagship Project: King Abdullah International Gardens (KAIG) — SAR 2,631,055,603 | Owner: Riyadh Municipality | Consultant: Dar Al-Handasah | Designer: Barton Willmore, UK

- Direct **end-to-end procurement and supply chain operations** for KAIG spanning 2+ million m² of botanical infrastructure, one of the Kingdom's most complex **Vision 2030 giga-projects**.
- **Lead, coordinate, and mentor a team of 5 Procurement Engineers**, setting KPIs, reviewing performance, and ensuring full alignment with the project master procurement schedule.
- Spearhead sourcing, **technical evaluation**, and procurement execution of highly specialised architectural packages — **ETFE pneumatic membrane systems** (Victor Voltic) and **PTFE cover works** (Obeikan) — coordinating shop drawing approvals and phased delivery against critical milestones.
- Managed complete **structural steelwork procurement** (AIC), resolving engineering **change orders** through direct coordination with the Engineering House (Dar Al-Handasah) and the commercial department.
- Orchestrate the full **RFQ/RFP cycle**: conduct comprehensive market analysis, identify and **pre-qualify global and local vendors**, and perform rigorous **price comparison table audits** to deliver optimal cost and technical value.
- Lead high-level **commercial negotiations** with international suppliers and subcontractors, resolving multi-million-riyal **financial disputes** and payment claims while maintaining uninterrupted site supply continuity.
- Leverage **Oracle Procurement Modules and SAP** to manage the **PR/PO lifecycle**, multi-project **budget tracking**, and supply chain workflow integration across engineering, commercial, and site teams.
- Deploy **Power BI dashboards** to convert raw procurement data into executive intelligence: **vendor KPI tracking**, delivery adherence rates, and cost variance analysis.
- Coordinate directly with consultants to secure pending **material approvals** and ensure 100% compliance with **ASTM, BS, and LCGPA** regulatory standards across all technical submittals.

Procurement Engineer

May 2022 – Nov 2022 (7 Months)

Al Enmaa Al Mimar Contracting · Riyadh, KSA

Projects: Mall Altaif | Zahia Al Madina

- Directed the complete **procurement and contract administration lifecycle** for major commercial developments, ensuring supply chain deliverables aligned with aggressive project schedules and quality parameters.
- Primary commercial liaison between internal **engineering and finance teams** and external vendor network — **negotiating supply terms**, resolving delivery discrepancies, and coordinating precision logistics.
- Administered **procurement budget tracking**, evaluated **subcontractor bids**, and optimised fund allocation to mitigate financial risk across concurrent project scopes.
- Streamlined **invoicing and payment certification workflows** for all suppliers and subcontractors, eliminating processing bottlenecks and maintaining healthy cash flow and uninterrupted site operations.

Civil Contracts & Materials Engineer

Oct 2016 – Mar 2022 (5 Years 6 Months)

Murtada Maaz Consultancy SD · Sudan

Projects: French-Sudanese Bank | Al Bir Rehabilitation | Al Kabeer Hospital | Faisal Islamic Bank of Sudan

- Served as **Resident Engineer** across four simultaneous high-value projects, combining **site supervision** authority with **materials procurement** and **contract administration** responsibilities.
- Reviewed and processed all contractor submittals, **material compliance documentation**, and **shop drawings** — applying structural engineering judgment to validate conformance with approved designs and international codes.
- Conducted **iron, concrete, and soil testing** programmes; enforced **QA/QC protocols** for incoming construction materials; maintained comprehensive site records and monthly payment extracts.
- Coordinated weekly progress meetings with contractors and owners; tracked schedule adherence, resolved site-level disputes, managed all **material receipts and invoice certifications**.
- Modified construction drawings in response to site conditions and **design change requests**, maintaining full as-built documentation and achieving zero non-compliance events.

Junior Procurement Engineer

Jul 2014 – Sep 2016 (2 Years 3 Months)

Al Faisal Real Estate Co. Ltd. · Khartoum, Sudan

- Initiated procurement career concurrently with BSc Civil Engineering degree; supported **vendor pre-qualification** and market research for **ready-mix concrete, structural steel**, and finishing materials across Khartoum.
- Reviewed **BOQs** and conducted on-site incoming material inspections, applying engineering knowledge to enforce baseline **structural specifications** and safety standards.
- Monitored daily site deliveries, cross-referenced **delivery notes against POs**, and maintained accurate **site inventory logs** to prevent material stockouts and mitigate project delays.

EARLY CAREER

Organisation	Role	Period	Location
Al Maymoon Ready Mix Factory	QA/QC & Materials Testing Trainee	Jan – Mar 2016	Khartoum
Rebar Engineering & Construction	Site & Materials Engineer (Trainee)	Jun – Aug 2015	Khartoum

EDUCATION

Bachelor of Science (Honours) — Civil Engineering

University of Science and Technology · Sudan

PROFESSIONAL CERTIFICATIONS

Active & Awarded

- **Project Management Professional (PMP®)** — Project Management Institute (PMI) *(Active)*
- **Registered Professional Engineer** — Saudi Council of Engineers *(Active)*
- **Project Management using Primavera P6 (PPM-P6)** — Oracle Authorised Training Partner *(Active)*
- **Construction Management: Managing Risk** — PMI / Authorised Provider *(Active)*
- **Strategic Negotiation** — Authorised Training Provider *(Active)*
- **Excel for Project Management** — Authorised Training Provider *(Active)*

In Progress — Target 2026 *(demonstrating commitment to continuous professional development)*

- **CIPS Level 5 — Advanced Diploma in Procurement & Supply** — Chartered Institute of Procurement & Supply (CIPS) *(Target: Q3 2026)*
- **Certified Supply Chain Professional (CSCP)** — APICS / Association for Supply Chain Management *(Target: Q4 2026)*
- **Oracle Procurement Cloud Certified Implementation Specialist** — Oracle University *(Target: Q2 2026)*

PROFESSIONAL MEMBERSHIPS

- **Member** — Saudi Council of Engineers (SCE) *(Active)*
- **Member** — Sudan Engineering Council *(Active)*
- **Member** — Federation of Sudanese Engineers *(Active)*

TECHNICAL SKILLS & SOFTWARE PROFICIENCY

Procurement & Commercial: Strategic Sourcing, Vendor Pre-Qualification, RFQ/RFP Management, Contract Negotiation, TCO Optimisation, Price Comparison Analysis, PR/PO Lifecycle Management

ERP & Procurement Systems: Oracle Procurement Modules (ERP), SAP Materials Management (MM)

Project Controls: Primavera P6, Microsoft Project

Data & Reporting: Power BI (Dashboards, KPI Reporting), Microsoft Excel (Advanced)

Engineering & Design: AutoCAD (2D/3D), ETABS, SAFE, PlanSwift

Standards & Compliance: ASTM, British Standards (BS), LCGPA, FIDIC Conditions of Contract, ISO 9001 QA Principles

SOFT SKILLS & PROFESSIONAL COMPETENCIES

▸ Leadership & Team Development (5-Engineer Team)	▸ Problem Solving Under Operational Pressure
▸ High-Stakes Commercial Negotiation	▸ Bilingual Communication — Arabic & English
▸ Cross-Cultural Stakeholder Communication	▸ Time Management & Deadline Adherence
▸ Analytical Thinking & Data-Driven Decisions	▸ Attention to Detail & Quality Assurance Mindset

LANGUAGES

Arabic — Native / Bilingual **English** — Full Professional Proficiency

FLAGSHIP PROJECT REFERENCE

King Abdullah International Gardens KAIG	Contract Value: SAR 2,631,055,603 Owner: Riyadh Municipality (Amanat Al Riyadh) Main Contractor: Zaid Al-Hussain & Brothers Group Consultant: Dar Al-Handasah (Shair & Partners) Lead Designer: Barton Willmore, UK Role: Senior Procurement Engineer & Team Lead — Full procurement lifecycle management Key Packages: ETFE/PTFE membrane systems, structural steelwork, specialised botanical & architectural components
