

MOSTAFA MAHMOUD OSMAN ABDELGHANY

MEP Procurement Section Head | Strategic Sourcing & Vendor Management | Technical Office & BIM Background | Team Lead
Riyadh, Saudi Arabia | +966 502 582 122 | engmostafamahoud2012@gmail.com | linkedin.com/in/mostafa-abdelghany-4352a534a

PROFESSIONAL SUMMARY

MEP Procurement Section Head with 12+ years of dual-track experience spanning HVAC/MEP engineering, technical office and BIM coordination, and strategic procurement across Saudi Arabia and Egypt. Currently directs Mechanical & Electrical procurement for King Abdullah International Gardens (KAIG) — a SAR 2.63+ billion Vision 2030 botanical mega-project spanning 2+ million m² under Riyadh Municipality, with Dar Al-Handasah as project consultant — leading a procurement team and a network of 50+ qualified suppliers. Raised material submittal/approval throughput to 25 items per month by sourcing faster-delivery alternatives, protecting the project's critical path. A foundational background as an HVAC design and technical-office engineer — carried through BIM-driven coordination — gives a practising engineer's eye for evaluating vendor submittals, validating specification compliance, and negotiating cost variations directly with consultants and clients.

CORE COMPETENCIES

MEP Procurement Management • Strategic Sourcing • RFQ/RFP & Tender Management • Vendor Qualification & Management • Material Submittals & Approvals • Technical & Commercial Evaluation • Cost Variation & Negotiation • Contract Administration • Procurement Planning & KPIs • Supplier Performance Management • Team Leadership & Mentoring • BIM & Technical Office Coordination • BOQ / Quantity Take-off • Consultant & Stakeholder Coordination • Supply Chain Coordination • Specification Compliance Review

PROFESSIONAL EXPERIENCE

MEP Procurement Section Head <i>Zaid Al Hussain & Brothers Contracting Group — Riyadh, Saudi Arabia</i> <i>Project: King Abdullah International Gardens (KAIG) — SAR 2.63+ billion Owner: Riyadh Municipality Consultant: Dar Al-Handasah Vision 2030 Quality of Life Program</i> - Lead end-to-end MEP procurement (starting with Mechanical) for KAIG, one of the Kingdom's most complex Vision 2030 giga-projects, spanning 2+ million m² of botanical infrastructure. - Lead and mentor a procurement team of 3, overseeing RFQs, technical/commercial evaluations, and purchase recommendations, while managing a network of 50+ qualified suppliers. - Increased material submittal/approval throughput to 25 items per month by identifying faster-delivery alternative vendors, protecting the project's critical path. - Qualify and evaluate suppliers for mechanical and electrical equipment (pumps, fans, AC units, chillers, panels, lighting, wiring, BMS/controls) against project scope and specifications. - Coordinate material submittals and shop-drawing approvals directly with the project consultant, Dar Al-Handasah. - Evaluate cost variations and specification deviations; negotiate pricing, delivery schedules and terms with vendors and clients. - Conduct regular site visits and progress reviews to align procurement planning with construction sequencing. - Maintain procurement KPIs and reporting for project management.	Oct 2024 – Present
Senior BIM & Technical Office Coordinator (MEP) <i>Atrium Quality Contractors — A Talaat Moustafa Group Subsidiary — Cairo, Egypt</i> <i>Project: Noor City, New Administrative Capital</i> - Led MEP technical office and BIM coordination for Noor City, a mega residential compound developed by Talaat Moustafa Group in the New Administrative Capital. - Coordinated infrastructure and compound-wide MEP works across multiple subcontracted companies, aligning design intent with site delivery. - Managed BIM-based clash detection/coordination and technical documentation across MEP disciplines, feeding accurate quantities into cost and procurement planning.	Mar 2023 – Sep 2024
Senior Mechanical Engineer — Technical Office <i>Pillars Constructions — Cairo, Egypt</i>	Apr 2021 – Feb 2023

Projects: Bernice Military Airport | Zagazig University (New Administrative Capital) | Laverde Compound

- Managed technical office scope across three concurrent projects (airport, university and residential): BOQ/quantity take-off, material submittals, and mechanical equipment selection.
- Prepared technical and commercial comparison matrices ("iterations") to evaluate suppliers, validated against approved shop drawings and as-built site dimensions.
- Supported pricing negotiations and value engineering, balancing specification compliance with cost efficiency.

Mechanical Engineer — Technical Office

2017 – Jun 2021

Hassan Allam Construction / Hassan Allam Technologies — Cairo, Egypt

Projects: Egypt International Exhibition Center | Zewail City | Bernice Civil Airport (Terminal 1) | Aeon Towers (6th of October City)

- Delivered technical office coordination for HVAC, fire-fighting and plumbing systems across large-scale infrastructure and high-rise developments, including a 20-floor full-finish turnkey tower (Aeon Towers).
- Reconciled system design and quantities between engineering and site execution teams, reviewing vendor and subcontractor shop drawings for compliance.
- Conducted site visits and technical support during execution on an airport terminal (Bernice Civil Airport) and a national research campus (Zewail City).

HVAC Engineer — MEP Design (Saudi Projects, Egypt-based)

2016 – Oct 2017

EDC — Expertise for Designing and Consulting — Cairo, Egypt

Projects (Saudi Arabia, remote design/back-office support): Riyadh Metro | Radisson Blu Hotel | Hilton Riyadh Hotel | King Fahd Medical City | Haifa Compound

- Delivered MEP design and back-office engineering support (HVAC, plumbing, fire-fighting) from Egypt for major Saudi Arabian projects across hospitality, healthcare and infrastructure sectors.
- Produced shop drawings, design reviews, BOQs and coordination drawings that directly informed client and contractor procurement decisions.
- Built early exposure to KSA project specifications and international consultancy standards.

Mechanical Engineer — Mandatory Military Service

Jan 2013 – May 2015

Egyptian Armed Forces Engineering Authority — Egypt

FLAGSHIP PROJECT REFERENCE

KING ABDULLAH INTERNATIONAL GARDENS (KAIG)	Contract Value: SAR 2,631,055,603 (~SAR 2.63 billion) Owner: Riyadh Municipality (Amanat Al Riyadh) Main Contractor: Zaid Al Hussain & Brothers Group Consultant: Dar Al-Handasah (Shair & Partners) Lead Designer: Barton Willmore, UK Scale: 2+ million m ² botanical mega-project — Vision 2030 Quality of Life Program My Role: MEP Procurement Section Head — Mechanical & Electrical procurement lifecycle
---	--

EDUCATION

B.Sc. Mechanical Engineering — Benha University, Egypt

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Registered Engineer — Saudi Council of Engineers (SCE), Membership No. 1084929, Mechanical Engineering

BIM Fundamentals & Applications for Engineers • Revit MEP Essential Training + Families • Practical Training: HVAC, Fire-Fighting & Plumbing Systems • Programming for Everybody (Python) • English Conversation Course

PROFESSIONAL MEMBERSHIPS

Member — Saudi Council of Engineers (SCE)

TECHNICAL SKILLS & SOFTWARE

AutoCAD • Revit MEP • Navisworks • HAP • MS Office (Advanced) • BIM Coordination

SOFT SKILLS

Leadership & Team Mentoring • Stakeholder & Consultant Communication • Analytical & Data-Driven Decision-Making • Negotiation Under Pressure • Time Management & Deadline Adherence • Attention to Detail & Specification Compliance

LANGUAGES

Arabic — Native | English — Professional Working Proficiency

KEY PROJECTS

Saudi Arabia: King Abdullah International Gardens (SAR 2.63B) • Riyadh Metro Project • Radisson Blu Hotel • Hilton Riyadh Hotel • King Fahd Medical City • Haifa Compound

Egypt: Noor City • Aeon Towers • Zewail City • Egypt International Exhibition Center • Bernice Civil Airport • Bernice Military Airport • Zagazig University • Laverde Compound
